

## MULHALL EXPOSURE FORCES MEMBER FROM ILLINOIS TO RESIGN

Washington, July 21.—Representative James T. McDermott, of Illinois, today on the floor of the house offered his resignation to take effect at once.

McDermott is a Democrat, representing a constituency which includes the stock yards district of Chicago, and was one of the figures in the exposure of Col. Martin M. Mulhall, star witness in the lobby investigation.

A majority report of the investigating committee, now ready to come before the house, recommends that he be censured with officers of the National Association of Manufacturers. A minority report recommends that he be expelled from the house.

McDermott's resignation came as a sensation today when, immediately after the house had assembled he arose to a question of personal privilege of it from the floor declaring he would appeal his case to the people of the fourth district of Illinois. He said he had already forwarded his resignation to Governor Duggan and said he would be a candidate for re-election.

Mulhall charged that McDermott received so much for his congressional frank, for circulating matter for the manufacturers and that McDermott had claimed \$7,500 from local pawn brokers to work against the federal loan

shark law and \$2,000 campaign contribution from a Chicago brewer.

McDermott's defense was that the money received from the pawn brokers was a personal loan and that the brewers donated \$500 to his campaign fund out of personal friendship. He also denied a charge by Mulhall that he had forged Harold McCormick's name to a check for \$250.

The majority of the investigating committee recommended censure and reported McDermott guilty of acts of impropriety and recommended that McDermott be censured for these acts that were "unbecoming the distinguished position he holds" and added that "his training and association has not given him the ethical perceptions and standing relative to public office that usual characterize public men."

The case is to come before the house for a vote Thursday.

## ORGANIZED BASE BALL IS A MONOPOLY NOT A TRUST, HOLDS JUSTICE IN VACATING HAL CHASE INJUNCTION

Buffalo, N. Y., July 21.—Organized baseball suffered a legal defeat today when Justice H. P. Bissell granted the motion to vacate the injunction secured by the Chicago American league baseball club restraining Hal Chase

from playing with the Buffalo Federal league club.

The lack of mutual obligation in the so-called 10-day clause of the contract under which Chase was playing with the Chicago team whereby the club could terminate the contract on 10 days' notice

while the player was bound under several provisions of the national agreement, formed the basis of the decision vacating the injunction.

That organized baseball is a violation of the Sherman anti-trust law was denied by Justice Bissell, on the ground

that he cannot agree that the business of baseball for profit is interstate trade for commerce and thereby subject to the provision of the Sherman act. The court held it was a monopoly of the baseball business in contravention of the common law.

## HUERTA SAILS FROM MEXICO FOR FRANCE

Puerto, Mexico, July 21.—The German cruiser Dresden sailed for Jamaica last night having on board former President Huerta and former War Minister Blanquet and their families.

Their departure was without incident or farewell demonstration. Huerta gave out a remarkable interview, in which he declared his belief that the United States is preparing to annex Mexico.

The former dictator was in a jovial mood. It was noticeable, however, that while his eyes smiled, his thin lips retained their stern, grim lines. Laughing and shaking his finger at the correspondent of the International News Service to

give emphasis to his remarks, he said: "President Wilson has attempted more than he can carry out. His Mexican policy will never succeed. He thinks he knows the Mexican people, but he does not. I understand them because I am one of them and one of the aristocrats, but one of the plain people. I am just an Indian, but I know what I am talking about."

"I believe that the United States will intervene in Mexico. Mexico needs a strong man for a ruler. This will be made apparent before six months have elapsed. President Wilson will have to acknowledge it." (Continued On Page Seven)

## MISTAKES IN THE BIBLE

Chicago, July 21.—"Preachers who insist that there are no mistakes in the Bible are the greatest foes of Christianity," declares Dr. Washington Gladden, noted Columbus minister, in an article in the current Biblical Magazine this month.

"We find not a little bad morality in the Bible," says Mr. Gladden. "The attempt to array the Bible against the whole sum of human knowledge will turn away the plain men from the church, discredit the book itself and prevent it from filling the place in which it belongs in the religious life of the masses."

## LEGISLATURE HOLDS BRIEF SESSION AND REDUCES STATE TAX

Columbus, Ohio, July 21.—Members of the state legislature today returned to their homes after taking part in the shortest session in the history of Ohio. In less than nine hours the solons enacted into law Governor Cox's program by reducing the state tax levy, by wiping out the levy for the 1 per cent pay roll fund for insurance of public employees and by regulating leases of mineral rights in school reservation lands.

There was time enough left to defeat a bill introduced by the Republican minority seeking to suspend for one year the 15-cent half-mile road levy and to kill two resolutions offered by the Republicans calling for an accounting of the receipts and expenditures of the state funds during the Harmon and Cox administrations.

After 90 days the law relating to the workmen's compensation law will become effective.

The other two laws are now in full effect. The school lands bill was amended by inserting an appropriation clause at the request of the Hocking Valley Oil company.

In the event of dispute as to the value of property seized by the state, the amounts are to be determined by three arbitrators and must be paid by the state to the persons from whom the property is taken.

Before the legislature adjourned at 9:45 last night the bills had been signed by the governor and filed with the secretary of state. Expert clerks did the engrossing and enrolling. The legislators served yesterday without pay, only receiving 2 cents per mile for their trips to and from home.

About one third of the legislators and porters were present.

"We offered to let the Union Furnace and Oil Co. retain possession of the lands provided they let the state have 50 per cent of

## 75,000 Facing Near Starvation In Ohio Mining Districts

Cleveland, Ohio, July 21.—Without food or money, 75,000 men, women and children are near starvation in the mining districts of Eastern Ohio, according to the claims of Albin, miners' president, district No. 5, who is here today making an appeal for help for the starving people. He says miners have been out of work since April 1, without wages, and with only \$7.50 union benefits since that time. They and their families are slowly dying. Foes of the mine sent out word to them not to come out, according to him, and they will succeed unless the mine is closed and Ohio's coal fields are closed.

All the Ohio mines, except in Sub-district No. 5, are closed in Harrison, Belmont and Monroe counties. There are still 100,000 men and women suffering from the famine.

It is claimed that Patton induced the girl to leave her home in Cincinnati last Tuesday and accompany him to Portsmouth, where they lived for two days as man and wife in a room above a Tenth street restaurant. The offense charged against Patton is a most serious one, and it was when the Cincinnati authorities advised Judge Beatty of the evidence against him in their possession that he agreed to deliver the girl into the jurisdiction of the Hamilton county juvenile court. Had he so desired, he could have refused the request, and handled the prosecution of Patton in the local court.

Chief of Police McCarty was directed Tuesday morning by Mayor Erick to make arrangements to detail an officer during the day to patrol the North End of the city for the sole purpose of ridding that section of the city of the undesirables who land there from incoming freight trains. The mayor is possessed of the idea that the city is infested each day with suspicious characters whose presence in the city is a menace to the life and property, particularly in the North End.

He stated Tuesday morning that this danger will be much more apparent in the near future, when the varied public and private work now under contemplation is actually started. ## Didn't Get Doll, Swore Out Warrant

Upon complaint of Sam Greenberg, the Market street merchant, San Roth, manager of the doll shop, stood at the carnival grounds in the West End, was taken in town Tuesday morning by Chief McCarty and Officer Grant Cooper, who arrested him on a warrant charging him with conducting a gambling device.

Greenberg claimed that Roth was operating a game of chance, in which his patrons were dealt with unfairly. Roth's arrest was ordered after Greenberg had related his tale of woe to the mayor Tuesday morning. He said he and his wife and little girl were strolling through the carnival grounds Monday evening, when the latter expressed a desire for one of the dolls in Roth's booth. Roth refused to sell one of them for cash, according to Greenberg, telling him that he would have to buy padlocks on which were numbers, one of which would draw a doll, each time the wheel turned around. After playing the wheel unsuccessfully three times, Greenberg said his name for showed up the fourth time, but that Roth refused to give him the doll, claiming that a number appeared for which there was no holder.

According to the mayor, Roth converted himself by his own evidence in the course of which he admitted that he had no padlocks, but was nothing for their money, and that the wheel was not round. Roth, however, entered a strenuous denial to the statement that Greenberg's number won the doll, as he claimed. At the conclusion of the hearing, the mayor fined Roth \$25 and costs, and ordered him to discontinue his game. Roth paid up and left town Tuesday.

## Christmas Will See Gallia Pike Paving Finished

Assurance has been given the city officials by S. Monroe and Son, successful bidders for the Gallia pike paving contract, that work will be started on the improvement of that thoroughfare at once and pushed to rapid completion. They claim, that barring unforeseen difficulties, the street should be turned over to the city by next Christmas day. Whether tar filler or concrete filler will be used will not be finally determined until after the board of Control return from its "junketing" trip to Cleveland to view streets on which the concrete filler was used. If concrete is used, the opening of the street for traffic will be delayed considerably longer than if tar filler is used.

## The Movies

### Lyric Features

Alice Joyce and Tom Moore in "The Weekling," a splendid dramatic feature offering will be shown tomorrow, a story of love and adventure superbly staged and acted.

On Friday comes the fifty mile a minute comedy, "Love, Luck and Gasoline." It is the speediest funmaker ever produced by the Vitaphone company. During the action of the comedy every conceivable that can show speed is utilized and the audience fairly holds its breath as each speeding vehicle is flashed on the screen. John Bunny, Fatty (Wally Van), and Miss Tammy (Gillian Walker) are the principals in "Love, Luck and Gasoline," and they are as speedy a trio of comedians as ever faced a camera. So don't fail to see this speed comedy in three parts.

### Columbia Features

"The Chasm," a two-reel special Essanay picture, at the Columbia this evening is a high class picture in every sense of the word; it unfolds a story of love and intrigue that is extremely interesting from beginning to end; just the kind of a picture that everybody wants to see; good acting, clear photography and elegantly costumed. Be sure and see this picture at the Columbia this evening.

"The Boy From the Poor House" and "A Foolish Agreement" are two good single reel pictures on the program for tomorrow. Remember, every Thursday is a big feature day at the Columbia, and for Thursday of this week Manager Tynes has secured Robert Edison's greatest and most successful play, "Strangheart." This great picture comes in three parts and was produced by a selected company in the Biograph studios and under the direction of Klaw & Erlanger. This is one of the very best of all reproductions of modern plays, and if you enjoy a very high class picture, you simply can't afford to miss "Strangheart" at the Columbia on Thursday. This picture will be presented with full orchestra accompaniment.

### The Exhibit

The fourth installment of that great drama "The Million Dollar Mystery" is to be shown at the exhibit tonight. In the first three parts is shown how the millionaire, traitor member of the "Black Hundred," makes a desperate escape from their vengeance in a balloon which is wrecked at sea. \$1,000,000 mysteriously disappears from Hargrave's home at the same time. The "Black Hundred's" attempt to find the \$1,000,000 by kidnapping Florence, Hargrave's only child, is frustrated by Norton. Their next attempt to find it, in a lonely warehouse, into which a stranger, rescued at sea is reported to have disappeared, ends in a sensational trapping of the conspirators except Braine, their clever leader. And there is still no trace of the \$1,000,000.

The fourth episode to be shown tonight is as follows: "The Third Floor Flat" With Braine and Princess Olga in command, the "Black Hundred" continues its dastardly plotting. They lure Florence to an apartment house by a letter purporting to come from her father whom she has not seen since babyhood. But, as her "father" embraces her, she sees in the mirror many evil peering faces and realizes she is trapped. In this terrible situation, surrounded by villainous foes, instead of shrieking or swooning, this courageous wisp of a girl plans a desperate escape and miraculous as it seems, she does escape.

In addition to this excellent picture Manager Lay has secured "A Relic of Old Japan," showing the tragic end of a son of the Samurai, graphically presented by the Domino Players.

### Scenic Tonight

The big feature tonight at the Scenic is "Miller Bros. 101 Ranch," feature "The Renegades' Sister," a thrilling story of frontier days in three parts. ## THEATRICAL

### The New Sun

Kennedy & Vincent's musical comedy, "The New Office Girl," opened at the New Sun Theatre yesterday and more than pleased two large audiences. The show is snappy and full of life from start to finish. Mr. Kennedy as O'Brien, the Irish comedian, is the chief laugh maker and his work is of the class that keeps one busy trying to keep even with his rapid fire line of jokes.

Good singers and clever dancers, the choruses of pretty girls made a decided hit. While the clever work of the rest of the company made a show that was enjoyed by every one, "The Kennedy" company will be here the entire week and will offer an entire change of bill Thursday. Some new and pleasing for the last half, so be sure to see this mid-summer attraction at the New Sun.

### At The Casino

Tonight will mark the closing performance of "The Wolf" by the Casino Players at Millbrook Park. This is one of the best stock productions ever seen in Portsmouth and you shouldn't miss it.

Tomorrow night, Mr. Walt Curtis whose excellent work as a member of last year's company will make his first appearance as a member of the present company. Mr. Curtis has a very strong emotional role in "When The Tide Turns" and it is needless to say he will be at his best.

"When The Tide Turns" is a strong comedy drama depicting present day society life. It is bright and funny in many of its scenes but with a serious interest in the plot that holds the attention of the audience till the final curtain.

The play is in four acts. The first, unlike many other first acts, gives the foundation of the whole story and is laid in Virginia. The other acts are in New York.

"When The Tide Turns" will run for the balance of the week with the usual matinees on Thursday and Saturday.

Seats can be reserved in advance at Winder's drug store.

The department made a splendid run and had the fire extinguished before \$200 damage was done. Mr. Arthur carried \$200 insurance on his fixtures and \$110 on his stock. It is thought mice chewing the matches caused the fire. The building is owned by Mrs. Anna Kriehder of Eleventh street.

## Two Georgia Women Who Have Strangely Disappeared

Few cases have aroused such interest throughout the south as that of the Nelms sisters, who disappeared in June from their home in Atlanta. The police of many cities have been asked to look for them, and they were believed to have been located a few days ago near Oakland, Ala. However, they disappeared.

Mrs. Elsie Nelms Dennis, the mother of the bright boy shown in the illustration with her, left her home in June. She got a divorce in Nevada. Soon afterward the sister, Miss Beatrice Nelms, a bright girl of twenty-five, who had established a good real estate business in Atlanta, left home.

Later a letter, purporting to have been written by Mrs. Dennis to her mother in Atlanta, said she had killed Beatrice and her appearance was near Gulfport.

was looking for her brother to kill him too, whereupon she would commit suicide, was received. The mother, of course, was distraught.

Then came the story that Mrs. Dennis was on her way to Texas to meet Victor Lums, once assistant United States attorney for Nevada, but now in Portland, Ore., to marry him. He had not been written for by her divorce proceedings in Nevada. Their last appearance was near Gulfport.

### COMMEND THE GOVERNOR.

Governor Cox should be commended for refusing to send troops into Belmont county until the civil authorities made a determined effort to suppress lawlessness. At the time the appeal was made for troops not a single one of the rioters had been arrested or any attempt made to arrest anybody connected with the disorder, yet a demand was made for troops in order to place the responsibility on state authorities. This is an old game. Nine-tenths of the lynchings and riots in this country would not occur if sheriffs would fearlessly do their duty. One determined man can suppress almost any mob. It has been done and can be done again. A mob is generally made up and led by egotists who by force of numbers hope to do hang or mistreat a helpless, unprotected and unarmed victim while the officer in charge with a political future staring him in the face forgets his oath of office and grovels on his stomach in the presence of the gathering and permits the prisoner in his care to be taken out and murdered. The threat to remove the Belmont sheriff, if he did not get busy, resulted in his making several arrests, and probably more will follow. The Governor took the right course in the premises and pulled the sheriff's hand.

### ENGLISH THRONE TOTTERS.

The Ulsters want a home rule of their own choosing and are determined to fight for it. The British army has given notice by the resignation of leading officers that it will not wage war against the Ulsters and in the meanwhile a compromise is being effected through an amendment to the home rule bill to eliminate Ulster from its provisions so that province will not be ruled from Dublin. The attitude of this province has exposed the weakness of the English government and has caused the throne to totter. Some day there will be an upheaval upon the tight little island that will rid the silk-stocking, non-working, public panthers from official control and wipe their names off of the public pay roll forever.

### THE CLIMATE FINE.

The delightful evenings of the past several days have brought to the banks of the Ohio the cooling breeze of the September morn, making it unnecessary for the parapet to waste his wealth in car fare and hotel hold-up in the vacation planned. All he has to do is to get out on the front porch and keep cool and think how much more cheerful he is than the thoughtful who has gone to a resort and is stuffed in a little 2x1 room at so much per and loses pounds of flesh fighting mosquitoes and servants who have their hands out.

# Ed K. Walsh Is Badly Hurt In Fall From A Wagon At Idaho Home

A message telling of the serious injuries sustained by Ed K. Walsh, a former well known Portsmouth attorney was received Tuesday by Postmaster Jos. R. Walsh of Otway. The telegram stated that while in the mountains near Soldier, Idaho, where Mr. Walsh has resided for several years he fell from a wagon and was so badly hurt that his condition is very serious. The message advised relatives to come quickly. It was sent by R. H. Stevenson, a former Portsmouth newspaperman, who went West several years ago after settling up his business affairs at Athens, O.

Just what sort of an accident befell Mr. Walsh was not known. The message as received by Joseph Walsh was as follows: "Ed was badly hurt in fall from a wagon while returning from the mountains. Have good nurse here and in Otway. He left a priest and a priest is with me. Come Portsmouth quite a number of years ago. At one time Mr. Walsh was one of the leading attorneys of this city. His wife, Mrs. Ed K. Walsh is the present stenographer of St. Joseph's hospital in Otway.

Prompt and efficient work by a volunteer fire-fighting brigade extinguished the flames before much damage was done. The fire started in the blacksmith shop of J. A. ## OBITUARY

### Rev. Wm. A. Carroll

The following obituary of the father of Rev. J. W. Carroll, is taken from the Lincoln Republican of Hamlin, W. Va. Mr. Carroll was a gallant soldier and had numerous friends in this community. The obituary is as follows:

The fell destroyer comes to all ranks and conditions and hurries his fatal shafts at loved ones in the humble cottage, in the lordly mansions. To the subject of this sketch, the death Angel came quietly, with noiseless tread, and touching the sleeping form, said, "Come." The spirit of Rev. Wm. A. Carroll returned unto the God who gave it, and the returning mourners saw only the empty habitation of a winged soul. Today he sleeps with his fathers. The final audit of his life's account has been made up, but he is not dead!

"There is no death: This life of mortal breath Is but a suburb of the life elysian, Whose portals we call death."

The man who so conducts the order of his life that when the summons comes bidding him join the majority beyond, and leaves vacant his chair at the family board, the social circle or the state's council, has to leave behind him, indubitably impressed upon his age, marks or traits of character, worthy of emulation, that man has not lived in vain; the world and his fellows are benefited by his being. And such a life may be like unto "a tree planted by the rivers of water that bringeth forth his fruit in his season, whose leaves shall not wither," and whom no evil can befall. When the history of our times shall come to be written, the order of such a life will be accredited to Wm. A. Carroll.

The funeral was conducted by Rev. L. A. Canfield and was one of the largest ever held in West Virginia.

Rev. Wm. Addison Carroll was born in Cabell county, near Ona, August 17th, 1837. His mother died when he was yet of tender years, leaving him to be reared under adverse circumstances. The few winter months were utilized in the paid subscription school, but the boy whose nature was not content with these meager advantages, and after the close of the day was over, when the youths of his age were enjoying the pleasures of a social country existence, young Carroll was pouring over his books in the lonely cabin and drawing from the fountain of knowledge by the aid of a hollow dip and the blazing fire-place. At the age of 17 he began teaching and continued for about 40 years at intervals in this profession. No higher tribute can be paid him than to say that hundreds of his pupils owe to him their right to a high and exalted position in life.

In 1858 he was married to Miss Nancy M. Hyatt, who remained his life's companion for 52 years, and their union was blessed with three daughters and three sons. As a husband and father he was devoted, faithful, tender, loving and warmly appreciative of the boundless love and undying devotion of his noble wife and dutiful children; and when you could hold to that also that he was a true patriot, a true soldier, and a true statesman, and above all a true Christian, for it is the power of God into salvation to everyone that believeth, we do not know what else could be said of him.

Work on the bridge that is to span the Scioto river, is moving rapidly into the human character at a good clip. The A. J. Martin Company had a force of men on the job Sunday. Many local people visited the bridge Sunday.

John Vetter, a local tailor, is building an addition to his home, 100 Third street.

### Establish "Camp Up"

Alben Yreger and Dr. H. A. Maffey have established a camp at Moore's Landing on the Ohio river below Portsmouth and have called it "Camp Up." They entertained 100 visitors Sunday and treated them to a fine fish dinner.

As a public official and statesman, he lived a standard of excellence high in the ideals of men, and sought to reach the stars through almost insurmountable difficulties. Through a long and useful life he had cultivated in his youth and amid all the hardships of his service for the public he left an unimpaired and unimpaired private and public character. He was the first elected assessor of Lincoln county, and again in 1860 he was appointed and assessor for the county. In 1867 he was elected to the legislative office of state senator. As a legislator his acts were never questioned, and the statute books today contain many amendments already to his memory. As a private citizen he was a true patriot, a true soldier, and a true statesman, and above all a true Christian, for it is the power of God into salvation to everyone that believeth, we do not know what else could be said of him.

for the needy, sympathy and help to the unfortunate, his private life was an exquisite idyl, fragrant with tenderness.

As a Christian and an active member of the M. E. church, his life, his works, his walks were such as proclaimed to the outer world louder than trumpeted words, his creed. "My faith is fixed on nothing less than Jesus' name and righteousness." At the age of 12 he confessed Christ and joined the Methodist church. In 1872 he was licensed a local preacher; in 1877 he was ordained a deacon, and in 1892 an elder in his church. A mighty pillar of the church has fallen, but there will be no toppling of that structure. For hundreds of willing supporters have been hewn out by him for this emergency.

When the clear notes of the bugle blast sounded "lights out," there was left "where the dead remain alone" him, whose devotion to his friends was conspicuous for its intensity; whose affection for his state was that of the Roman for "the city of seven hills."

Loving husband, kind father, honored statesman, grand soldier, true friend, honest man, may your sleep in the quiet city of the dead be the rest of those who.

Sustained and soothed by an unflinching trust, approach their grave Like one who wraps the drapery of his couch About him, and lies down to pleasant dreams."

And may the boundless mercy of the lowly Nazarene, who gave us the precepts of your true and Christian life, and who, as the Christ King, washed all your sins away, save you to the eternal glories of the heavenly kingdom; that such a life and such a death as yours proclaiming must be.

One of his sons, Rev. J. W. Carroll, is pastor of the Portsmouth circuit and resides at Bertha. He attended the funeral.

George O'Brien  
 Local friends of the bereaved family received word Monday of the death of George O'Brien, aged and respected farmer of near Radnor, who died Sunday, after a short illness brought about by the infirmities of old age. Mr. O'Brien was one of the most well known farmers in that section of the county, where he had lived for many years. He was a veteran of the Civil War, and at the time of his death, had reached the age of 80 years. With his family he lived on his farm a few miles north of Radnor. Mr. O'Brien is survived by his widow, two sons and one daughter.

## YOUR EYES ARE YOUR BREAD WINNERS

Take care of them. If you would stop and think what it would mean to be deprived of your eyesight, how utterly helpless you would be, you wouldn't abuse your eyes in the least but would take the greatest care of them always.

The moment you feel that anything is wrong, if your sight is blurred, if you feel dizzy, if your eyes tire easily, you should not lose a minute in having them examined. By being prompt in attending to your eyes at the first sign of trouble you will be able to have the defect speedily and permanently cured.

We make no charge for examination and recommend glasses only when necessary.

## Picking Up Money

Using these columns is pretty much like picking up money on the streets. Walking is small effort, you wear out a little of leather, the money you pick up is clear gain, if you can't find the owner.

So it is little effort to telephone your "want" to this paper, your carrier will collect the little cost—only 25 cents a word each insertion—and the little ad is altogether likely to get for you what you want.

## MASONIC NOTICE

## NOVEL FEATURES FOR THE MASONIC PICNIC

New and novel features which will be worked out by the committee of the arrangements will be in evidence at the annual Masonic picnic, which will be held at Millbrook Park on Thursday, August 6th. Heretofore, the picnic has always been held on Friday, but a large number of merchants and retail clerks are unable to attend on that day, and Thursday was chosen instead.

The committee has also decided to abandon the plan of sending out invitations to Masons, and this year a general invitation will be issued through the press, several days prior to the picnic.

## Lad Touring World On Only One Leg

Ralph D. Tompkins, aged 20, of every city and town of any size in the entire country.

Imported Wurzbarger beer on draught at Finkel's Cafe, Gallia street.

The young man is now finishing his self-imposed task of seeing his own country first before starting through every foreign country on the globe. When a lad of four legs in a railroad accident, and consequently in his touring he is aided by crutches. The use with which he covers distances has enabled him to make some remarkable records for long distance hikes, despite the infirmity which he has incurred.

In 1911 he walked from New York to Chicago and returned a distance of 2,000 miles, in 39 days, and the year following the distance from Pittsburgh, Pa., to Jacksonville, Fla., 1,500 miles, was covered in 91 days.

He secured traveling expenses by appearing at the vaudeville theatres along his route, singing songs of his own composition and giving a short travogue. Tompkins goes on the assumption that since he cannot obtain education in the usual manner, he has sought the next best way to gain one, namely by traveling. He talks entertainingly of his tours, from which he has accumulated data of his country which few persons with more opportunities of obtaining do not possess.

He left New York City November 27, 1912, and before he leaves for foreign shores will have visited

### Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly.—Please tell me how I can keep cool. The sun just beats in our house all afternoon and I nearly smother with the heat.  
MRS. S. S.

Why not sit under the hall tree?  
Dear Dolly.—The mayor forgot to say just what we should play before ten o'clock. I think he overlooked this matter of importance and his attention should be called to it immediately, so here's hoping you'll see to the matter without future delay.

PIANO PLAYING PHIL.  
When Adam sees your inquiry he will write you a letter and tell you all about it, Phil.

Portsmouth, Ohio, July 17.—Dear Miss Wise.—I am in love with a man. I am 17 years old and I don't get to see him very often. He works on the railroad and lives in Columbus. Do you think I should go with a man of my own town? He is about ten years older than I am, and he seems to think a good deal of me. I have friends that work with me that are jealous of me. Tell me what to do.

BROKEN HEARTED HAZEL.  
If you are not engaged to the Columbus man there is no reason why you should not have friends here. You are too young to keep steady company.

Dear Dolly.—I go out to dance at the park once in awhile, and would like to know what I should say when asking a girl to dance with me?  
JOHNNY.

You might say "Miss Blank, may I have the pleasure of this dance with you?"

Dear Miss Wise.—I am a young girl of 18 and would like to know how I can become more popular? It seems I can't make very many boy friends.

FRIENDLESS GIRL.  
Some girls simply have the power to become very popular. They are nice, modest girls and yet they do not seem to attract men. To such girls I can only say: Keep your self-respect and you will at least have something worth while.

Dear Dolly.—Why is it boys don't like girls who act mushy? I don't mean hugging and kissing, but little incidents that attract their attention?

MUSHY.  
Because they think mushy girls are silly, and they're quite sure that these girls are just as mushy with other boys. A man may encourage a girl to act that way, but at the same time he is losing respect for her and some day will be sure to "shake" her for a girl who respects herself too much to be mushy with the boys.

### NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eupheria, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedy, but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or anyone else the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blessed with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life I have been a motherly nurse and being wholly self-supporting, I cannot over-estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADRIAN STILWELL, Eupheria, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Dear Miss Wise.—How would you like to have a boy you had never seen before?  
JESSIE.

I wouldn't do it, Jessie, so I haven't any advice to give on flirting.

Dear Miss Wise.—If a boy gets mad at you, and you like him, and hate to lose his friendship, who should speak first, and what should you say?  
KATY.

If he gets mad without any good reason let him stay mad until he feels better. You might ask him what the trouble is, but don't be too anxious to make up.

Dear Miss Wise.—I desire to take up the study of music. Will you kindly tell me which is the most preferable and profitable, the violin or piano?  
V. V.

Take up whichever you like best. If you intend to teach music later on I think perhaps the piano would be more profitable. Piano pupils are easier to get than those on the violin. Nearly every family in Portsmouth has a piano, and one or two children in the family who take piano lessons. There are already several good violin teachers in the city, and you might have difficulty in getting enough pupils to justify you in preparing yourself for a teacher.

Dear Dolly.—I would like to become a trained nurse. Do you

think this is a good profession to take up, and is it very difficult to learn? Must one know Latin? I am 17 and will graduate next year. Do you think I should go now or wait until I graduate?  
AMBITION GURU.

It is not an easy profession, by any means to be a good nurse, but it is one of the noblest professions in the world. The better educated you are the better nurse you will be. It would be better to wait until you graduate. By that time you will be in a better condition physically to begin studying nursing. It is advisable to know enough Latin to understand the doctor's prescriptions.

Dear Dolly.—Will you please tell me the name and address of the lady who has charge of the fancy work department at the Lanesville fair? It was recently published in the Times, but I did not get it.  
DORA.

Miss Clara Waller has charge of this department. Her address is 707 Sixth street. Home phone A 1602. She is especially anxious to have a larger and finer display than usual this year, and all who have any fancy work to enter should send it to her home as soon as possible. Premium lists can also be obtained by calling at Miss Waller's home.

Miss D.—H. A. M. has been married for quite a number of years and is still married.

Mrs. Astor too Much of An American to Like  
William Waldorf Astor, Expatriate in London

Mrs. Waldorf Astor, daughter-in-law of William Waldorf Astor, who many years ago moved over to London, worth about \$10,000,000 left by his father and grandfathers, has become so outspoken in her dislike for him that a far reaching family row has resulted. Mrs. Astor was one of the Langhorne sisters of Virginia, and she believed in the United States like most Virginians. When she came back several months ago she made that very plain. She said she was going to bring up her young son as an American.

It was evident that she could not be fully reconciled to her father-in-law, who did not want his son to wed her at all. But having social charm and many friends, she had a position in English society apart from that of the expatriated Astor family. Recently she made a remark about the elder Astor's money bags, a remark so sharp that it hurt the millionaire. The son, her husband, is said to have sided with her, and as a consequence Astor offered for sale two London newspapers which he purchased to boost his son's political ambition.

## Daughter Contests A. J. Morrow Will

Claiming that her father, the late Capt. A. J. Morrow, entered into an agreement of separation with his wife some time prior to his death, Mrs. Ruth Morrow Gould, of Cincinnati, entered suit in probate court Tuesday morning to contest the will of her late father, by the terms of which the bulk of his estate is bequeathed to his widow. She was represented by Attorney Theodore

Funk, who contended that such an agreement invalidated the will. Attorney B. F. Kingle, who represented the widow, argued that the fact that the couple were living together as man and wife at the time of Morrow's death gave the widow a just claim to the property. Probate Judge Bentley has taken the case under advisement and will render his decision later.

## TERMINALS

Mallet engine No. 1393 arrived at the local yard Tuesday morning. The large iron steeds are coming in from Runnicks with a large train of cars each day and are put to work at once on the valley division.

N. & W. Freight No. 1091, in charge of Conductor A. B. Dummarant and Engineers P. Cae and G. D. Prince, were heading in the yards at Williamson Monday afternoon when they split a switch, derailing several cars. The track was cleared by the train crew.

W. A. Stahl, a former N. & W. timekeeper clerk in the motive power department, who is now located in Cincinnati, was calling on old friends at the N. & W. division offices Tuesday morning.

Rev. Freeman Chase had charge of the noon Bible class in the N. & W. blacksmith shop Tuesday.

## MEXICO

(Continued From Page One)

Upon being asked as to his plan, Huerta said he would sail from Kingston to France and go immediately to the Riviera to join Porfirio Diaz, former President of Mexico, who is an exile.

Huerta is undecided whether to make his future home in Paris or Spain, but being a man who likes gaiety he will undoubtedly choose upon Paris.

### Carranza Promises Concessions

Washington, July 21.—That General Carranza's promises of material concessions to getting President Carbajal means that he will have the aid of the United States and the South American republics in opposing any counter revolution which started by Villa or any other Mexican was the belief expressed today in official quarters.

It is admitted if Carranza and Carbajal can reach an agreement it will be agreed that the terms agreed on at Niagara Falls have been complied with, and his government will be recognized. This is considered absolutely necessary so Carranza can get money to run his government. All debts contracted by Huerta after Oct. 10, 1913, are to be repudiated by the new government. Some are admittedly legal and will be honored as an act of grace, and not one of right.

### Carbajal Lays Down Peace Plan

Washington, July 21.—Provisional President Carbajal does not intend to surrender unconditionally to General Carranza and will concentrate his military forces and will resist an invasion rather than permit the constitutionalists to enter Mexico City without a previous agreement not to wreak vengeance on the lives and property of those who supported General Huerta. This was the tenor of information from authoritative sources in Mexico City received by Washington diplomats today. It spread a feeling of pessimism in some quarters over the possibility of an amicable settlement of the revolution.

Emilio Robson, head of the delegation which represented General Huerta at the Niagara Falls conference, arrived here today and discussed the situation first with the South American mediators and then at the Mexican embassy with Jose Castellot, personal representative of Carbajal. They made it plain that Mr. Carbajal had no objection to turning over the government to Gen. Carranza, but must insist on some assurances in advance that property would not be disposed and that there would be no wholesale executions or arrests. Mr. Castellot said he was confident that ultimately there would be an agreement in that regard between Carbajal and Carranza.

## DEPUTY INSISTS THAT THE EXHUMED BODY IS CATHERINE WINTERS

Champaign, Ill., July 21.—Despite the fact that the body of the girl exhumed from Mt. Hope cemetery in Urbana has been identified as that of Nicholas Barry's daughter, B. B. Barber, neighbor of Dr. Winters arrived here today from New Castle, Ind., in an effort to identify it as that of Catherine Winters. Physicians and cemetery officials who have seen the body, however, declared that there was no chance of identifying it as that of the missing girl failed to tally with it in many particulars.

John Wallace, of New Castle, a deputy county treasurer, who was partially responsible for the body being exhumed, continues to insist today the body was that of the Winters girl.

Columbus, O., July 21.—By request today Attorney General Hogan defined a chauffeur. A chauffeur, he said in effect, is a fellow who makes a business of driving another fellow's automobile for hire. For the occasional driving of another's car one could not be called a chauffeur.

## THOUSANDS QUIT WORK IN PROTEST

St. Petersburg, Russia, July 21.—Serious strike disturbances broke out today in St. Petersburg where 100,000 workers have laid down their tools as a protest against the active measures of the authorities at Baku and elsewhere against demonstrating strikers. The Cosmacks in the capital were mobilized in the Viherg quarter to disperse the strikers who indulged in much stone throwing and also fired some revolver shots. The troops succeeded in clearing the streets without resort to bullets as a couple of rounds of blank cartridges were sufficient to rout the disturbers.

## MADAME CAILLAUX

(Continued From Page One)

which burst upon Paris with the fury of a storm following the murder of Gaston Calmette all had come to the surface today at the trial of Madame Caillaux.

The direct cause of this was the deposition of Raymond Poincaré, president of France, read in the court room. This alone is an unprecedented procedure. In his deposition the president told of Caillaux's coming to his office and telling him of the belief that Calmette was about to publish private letters written him by his wife before they were married.

"If he does I will kill him," Caillaux declared to the president.

When this was read there was a restless movement, then a low murmur, gradually growing in volume until the presiding judge sharply called for order and threatened to arrest the disturbers.

The principal witness today was Joseph Caillaux, his testimony all but revealing the sensation caused by the reading of the deposition of President Poincaré. He told of the threat he made to his wife to kill Calmette, how she pondered over it and how nervous he left her when he went to the senate. It was after she was told that nothing could be done to prevent the publication of the letters that Madame Caillaux decided to kill Calmette, editor of *Le Figaro*.

## FACTIONAL LEADERS CONFER WITH KING TO SOLVE HOME RULE

London, Eng., July 21.—Great crowds gathered today about Buckingham Palace watching the arrival of government, opposition and Irish leaders to the conference called by King George in an attempt to bring about a peaceful solution of the Irish Home Rule strife.

His majesty formally greeted the conferees but did not take any part in the conference. Spencer Lowther of the house of commons presided. One of the first to arrive was Premier Asquith. The meeting of the conferees and royal leaders on an intimate footing was partially friendly, but could not have been based on speaking terms since Mr. Asquith was accused in the house of commons of lying about recent government plans to suppress the Ulster volunteers.

The conference, after being in session for about an hour and a half, adjourned for the day, but will meet again tomorrow.

Chancellor Lloyd George represented the government. Lord Lansdowne and Bonar Law represented the opposition. John Redmond and John Dillon represented the Nationalists and Sir Edward Carson and Capt. Craig the Ulsterists.

Resentment over the interference of the King was growing today. The Daily Citizen voiced the anger of the people of the Unionist forces of the government by declaring the "King's veto had been substituted for the lord's veto." The court must heed where the next footsteps lead. Unionists are dissatisfied over the stand the King has taken in the matter. They foresee on the part of Premier Asquith to "save his face" by a step which will take from King George the last vestige of popularity which he enjoys.

London, Eng., July 21.—While the leaders of the Liberals, Conservatives, Nationalists and Ulster Unionists were in conference at Buckingham Palace today endeavoring to find a solution of the Irish Home Rule bill, preparations were being made by the chief unionist organizer for a general election. He sent orders to all the constituency to prepare for an election three weeks after the conference, as the leaders are convinced that no matter what may be done at Buckingham Palace, the house of commons must be dissolved.

During the time the conferees were seated around the table they found an opportunity to discuss many points of difference, and before adjourning touched on the question of the exclusion of the County Tyrone from the operation of the Irish Home Rule bill, a point which everybody recognizes as the most thorny one of the whole question.

The general impression is that the conference will settle this, since nobody will allow any one county to turn the scales for a civil war. At the same time it is not thought parliament will accept any compromise going beyond the offers already made and refused, and if the house of commons did do so, Ireland itself would not fall into line.

## UNIFORM RANK K. OF P'S. IN ENCAMPMENT

Terra Haute, Ind., July 21.—More than 2,000 uniform Knights of Pythias attending the International Encampment here participated in the annual parade today. Arthur Stobart, of St. Paul, Minn., commander-in-chief, and other high officials of the order reviewed the parade. Interest today centered on tomorrow's election when a successor to Major General Elshart will be selected. Among the candidates for the position is General E. R. Durand of Columbus, Ohio.

Peoria, Ill., Buffalo, N. Y., and Nashville, Tenn., are contesting for the next encampment.

## Belmont Co. Sheriff Swears In Guards

Belmont, O., July 21.—Acting John Anderson today recruited 150 union miners to protect pump men and engineers at mines where the strike is affected. The pump men and engineers refused to work unless they were given protection and the union, which is not in sympathy with the I. W. W., sent men to guard the mines at Wheeling Creek, Lansing, Barton and Neff. With the pumps going, it is stated that much valuable mine property will be saved.

## SHAMROCK IV SAILS

Falmouth, Eng., July 21.—The challenging yacht Shamrock IV, with which Sir Thomas Lipton will try to lift the American cup, sailed for New York today after being held up here by bad weather. The Shamrock IV was accompanied by the steam yacht Erin with Sir Thomas and party of friends on board.

Londerry, Ireland, July 21.—On the eve of King George's Irish homecoming custom officers early today boarded a steam yacht off this port and seized 3,000 rifles consigned to the National Volunteers (the Home Rule forces). Gun running operations are still being carried on by both Nationalists and Ulster unionists.

#### Be Sure You're Right

No matter what the knockers say,  
Through jealousy or spite,  
Secure you travel on your way,  
If you but know you're right.

In all of history's long span,  
From Adam down to date,  
There never was a worthy man  
But earned somebody's hate.

Still, those who pushed the world along  
To reach the morning light  
Were those who heaved the carping throng,  
Assured that they were right.

It never will be otherwise:  
Who serves the common good  
Must bear the brunt of envious men  
And be misunderstood.

But he within whose inner soul  
The lamp of truth is bright,  
Fights on unclouded to the goal—  
He knows that he is right!

All but three of the thirty-two arrested have secured their liberty, the trio still in jail, including "Cheese" Edwards, Dan Ryan and Tom Stewart. Ryan and Stewart were put to work on the streets Tuesday morning, while Edwards will be committed to the Cincinnati workhouse Tuesday afternoon, unless his friends come to his rescue in the meantime and pay his fine of \$100 and costs. Several of his influential political friends called at the mayor's office in his behalf Monday afternoon and evening, but as none of them offered to secure the payment of his fine, their pleas fell on deaf ears.

## HAD LOST HOPE

"The sun is shining for me, once more," was the startling remark made by a happy man yesterday afternoon, as he sat looking out of the window of the busy office of the Bi-Chemie Doctors, in the Masonic Temple Building. For years he had been a victim to a disease that was sapping his very life away, and when he first visited these specialists some time before, life seemed very miserable to him, as it does to all victims of chronic disease. But what a change had been made in these short weeks. How well he expressed his gratitude time after time to the Bi-Chemie Doctors, and how a letter of recommendation to be published so that all his friends and other sufferers would know where he had been helped and where they could go themselves for treatment.

To Whom It May Concern:  
I was a nervous and physical wreck, suffering from a supposedly incurable condition, and was so pronounced by other doctors before you. They are candid and frank in I went under this wonderful new treatment of the Bi-Chemie Doctors, and now I am cured. It is curable. Their But I will say that after a few months under the Bi-Chemie Doctors' care that health seems to be reliable. Call and investigate. adv

### Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds Or More

A Physician's Advice

"I'd certainly give most anything to be able to put on a few pounds, and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by Fisher & Streich and other good druggists everywhere and every package contains a guarantee of weight increase or money back.

Caution:—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

## Saloons Must Be In Sanitary Shape

Sanitary conditions in the saloons for which licenses will be sought will not be considered lightly by the Seinto County Liquor Licensing Commission when the time comes to award licenses for next year, according to an announcement issued at the office of the commission Tuesday. The final chapter in the case against O. N. Horn, a railroadman, against whom an affidavit was filed in police court on July 14th, by Ben Osborn, charging him with unlawfully visiting his home on the night of July 14th, was written in police court Monday afternoon, when an unknown friend of Horn, entered a plea of guilty in his behalf, and paid a fine of \$50 and costs assessed against the accused by the mayor.

Horn left the city immediately after he learned that the police were on his trail, and has since been located in Columbus, according to his friend. He is now at liberty to return to Portsmouth without danger of arrest.

For the second time since her incorporation, the mayor turned a deaf ear to the pleas of Mrs. Sallie Collins to be released from the Cincinnati workhouse, where she is serving time in default of payment of a fine of \$100 for conducting a disorderly house. The mayor advised Mrs. Collins Monday afternoon in a letter that it was only by payment of the balance of her fine of \$100 that she could be released. Mrs. Collins would not pay the balance, and she remains in the workhouse.

Weller started the game all at ease with himself. In practice it was quite a discernible that he did not have control, but he went into the box as confident as a champion, and believed without doubtless that he would control himself. He could not make a strike over for a small grandfather of many men in this section, but whose eye is just as keen as it was before the war, and who can outrun any jack rabbit this side of Nebraska. Much then and there Weller dug his own grave, for an error was followed by another pass and another error, and the crowd began to cheer Mr. White, the crowd manager. Happening to be kindhearted, or some other sort of person, he said:

Our old friend, King 154. In fact, and I hope, which was found in fact, because of two or three remarkably lucky plays, one pulled Kendall, when he staggered Bud's line for a tippie, and the other blocked Teddy Roosevelt McKee, who ennobled Francisco out of no less than a full p.waller. VITAGRAPH THREE REEL SPEED COMEDY

Adams Co. Chautauqua  
Will Be A Hummer

The ninth annual assembly of the Adams County Chautauqua will be held August 7-16, down among the glorious hills of old Adams, near Peebles, and from present indications it will be the greatest affair of the kind ever held in Southern Ohio.

The officers of the Chautauqua are W. L. Hostetter, president; C. A. Watts, vice president; Roy Lister, secretary; George E. Hentz, treasurer; and S. N. Rucker, general manager.

The program as announced could hardly be improved upon. It includes some of the best talent in the country, people who have long since been prominent on the lecture platform. Included in the program are Miss Bess Darling, Hon. Fred Landis, former well known congressman, Dr. W. D. Cate, Clinton N. Howard, Colonel Tamm, grand old man of the Chautauqua platform, H. W. Sears, the World Made Quicker, White's Musical Review, Lulu Tyler Gates, a universal favorite as a reader, Chicago Lyric company, Rev. Samuel Small, John B. Ratto and Fred Lister's band.

The attendance each year has shown an increase and the promoters of the Chautauqua are looking for a great meeting.

In addition to being a true Chautauqua it is also a great something and an annual reunion of the people of this favored section, and those now living elsewhere who once called this place their home.

On a ridge high and dry, wood of with grand old oaks and maples, the tents are pitched and a genuine body refreshing and ideal refreshing vacation is enjoyed. An abundance of the purest water is supplied from deep wells, the grounds are well polished, the sanitation perfect, the atmosphere is sweet and invigorating, and the program is the best that money can buy. The managers of the Adams County Chautauqua do not ask how much it costs, they only ask, if good, and it is what we want, a few questions being answered in the affirmative, they buy it, regardless of the price, and invite the people to enjoy it.

URGES NEEDS

In a communication to the city council, dated July 20th, Mayor Peck has requested that honorable body not overlook that section of the city west of Market street in the business development. The mayor claims the need is a general feature of the heavy

Philadelphia, July 21.—The Baltimore team was played in the extreme west of the league baseball team played in the city, several miles from the city, Monday night, against the National and American leagues. A packed crowd of professionals, it is estimated, attended the game. The Baltimore team was defeated by the Philadelphia team, 10 to 3. The Philadelphia team is expected to play in the city again in the near future.

## FIGHT FANS ARE SORE

The unexpected and unfortunate incident of the Carpenter-Smith fight, in London, will not serve to make England more popular as a fight arena for American champions and professional fighters. Under these circumstances, it is not surprising that the American fans are sore. The fight was a disappointment to the American fans, who had expected a great contest. The fight was a disappointment to the American fans, who had expected a great contest.

WAS GUEST OF  
BRANCH RICKEY

While over Peck last week, E. C. Head witnessed the raising of the American League pennant by Connie Mack and his band of Athletics. A doubleheader was scheduled for the day with the St. Louis Browns, but rain intervened, and only the second game was played. The Browns won the game, 4 to 3. The Browns are the champions of the American League.

Head is quite an important person in American League baseball circles. He is very much in demand when not on the field, but found time to entertain his faithful companion, Rickey.

Rickey expressed the opinion that the Athletics will have considerable trouble winning the American League pennant this year. With Chicago, Washington, D. C., and the Browns all playing good ball, it is a hard job for Rickey to do. Rickey is a very good player and a very good manager.

Wolcast Is

Jones Won

S. Jones, formerly a member of the Portsmouth "picking" staff, has been elected to the first place in the American Association. Jones won his game, 10 to 3, against the St. Louis Browns. Jones is a very good player and a very good manager.

COLLISION  
INEVITABLE

Ray Deaver and William Austin, whose fight machine was badly damaged in a collision with a street car Sunday afternoon at the intersection of the city, are expected to sue the city for damages. The collision was a very serious one, and the damage to the machine was considerable. The city is expected to pay for the damage.

The Silver Leaf Court No. 2 will give a lawn fete Thursday evening, July 23rd, on the court house lawn. The fete is expected to be a very successful one, and the proceeds will be used for the benefit of the court.

POLICE CLIMB INTO A  
ROOM THROUGH WINDOW  
AND ARREST A COUPLE

Sergeant James Marshall head-man when she was placed upon the stand. The mayor, however, refused to place any credence in their statements, and adjourned them guilty. The woman of the charge of conspiracy and Kelso McColley, of Wheelersburg, who is employed in a local shoe factory, were caught and brought to the city prison in the auto patrol, where they spent the remainder of the night.

When brought before Mayor Frick Tuesday morning, the couple admitted being together in the room at that unseasonable hour, but claimed that McColley's presence there was necessitated because of the illness of the Gaughy woman. McColley testified he remained at the house and administered to the woman during her illness at her earnest solicitation, a statement which was corroborated in toto by the woman.

## PETE CHILDS IN INFANCY

Fans who are in the habit of getting their base ball scores at Miller's pharmacy on Ninth street have slipped a good one over on Manager Pete Childs. They have drolled up one of the Street Fair dolls in a base ball uniform and this modest little sign is tacked on one of the sleeves. "This is Pete Childs when three years old."

Arrested Upon  
Girl's Complaint

Upon complaint of Miss May Heron, of North Chillicothe street, Elvie Ferguson, a young man from Wayne C. H. W. Va., was arrested shortly after 6 o'clock Monday evening on a charge of disorderly conduct. The girl claimed that Ferguson, while under the influence of liquor, accused her near her home and used offensive language toward her. She also alleged he drew a knife and threatened to cut her when she remonstrated with him for his improper actions.

Miss Heron related her story in police court Tuesday morning, and it was corroborated by two of her neighbors who witnessed Ferguson's acts. It resulted in Ferguson's conviction, although he protested his innocence. He admitted, however, that he was drinking heavily Monday afternoon. In default of payment of a \$25 fine assessed against him, the mayor ordered him committed to the "street gang."

Henry Wallace and John Lodenbach, two itinerants, had their slumbers disturbed by Officer Leslie when they attempted to sleep in York park about midnight Monday night. The men pleaded guilty to loitering before the mayor Tuesday morning and were fined \$5 each, which fines they will satisfy by working on the streets.

Frankly Baker and Leonard Campbell, two plain drunks arrested during the night, also pleaded guilty and drew fines of \$5 each. From all indications, they will also be added to the street force as neither of them paid his fine.

## MUST HAVE CLEAN PIPES TO INSURE PURE WATER

The Times is requested to publish the following article which appeared in a recent issue of the Chicago Examiner:

"It is not sufficient, to purify the water we drink at its source unless the pipes through which it is carried are thoroughly cleansed there will remain serious danger of typhoid and other water-borne diseases."

"Minus through which polluted water has flowed become clogged with deposits which must be wholly removed before they can be regarded as safe carriers for pure water. Unless the pipes are thoroughly cleansed by some chemical method it will be years before the danger of contamination resulting from the previously foul water supply will be entirely eliminated."

"This fact doubtless explains some of the outbreaks of typhoid which occur even after filtration plants are installed. These outbreaks in most cases are probably not due to imperfect operation of the filters, but to the stirring up of old deposits in the mains."

"A slight increase in the rate of flow through water mains will start these old deposits and, of course, the wholesomeness of the most filtered water."

## New Boston Council Establishes Grades

The New Boston council met Monday evening with only four members present. Members Fred Esman and W. T. Harr being among the missing.

A number of small bills amounting to \$20.00 were read and allowed and placed on file.

After a short discussion Member Frank Taylor made a motion to the effect that the village engineer, Sam Harper, establish a grade on Gallia street, said grade to be fixed so that the large number of cement sidewalks already laid would not have to be torn up. The motion was brought about by talk of carting down the grade of the pile at Ohio avenue.

It was but a short time later that Member Taylor recalled his motion. Member Taylor, who appeared before council with a plan of establishing

a new sidewalk grade on the south side of Gallia, pile east of Center street. It would take in all the property upon which new buildings are to arise to take the place of the ones destroyed by fire. A raise of one foot was asked by Mr. Colburn in order that the pile would have a better drainage at this point than it had had in the past, and that he might construct a basement to his new building that would have the proper drainage to a sewer that will carry all the water turned its way by the change in the grade. All members of council present were in favor of Mr. Colburn's proposition as they had waded through water on these sidewalks during heavy rains. The motion just passed by Mr. Taylor had done at a standstill till he reminded his motion in order that

the grade at this point might be changed. At this juncture Member Colburn made a motion that every line which, with an 8 ft. x 12 ft. when resealed, adjourned that they would leave a space of 4 feet between the walk and the curb. It is at 7:30 and "not at nine o'clock" as the sense of council to have enough be put in. The street committee will space between the walk and the curb meet with the village engineer to go so that the water mains can be put next meeting night will file a profile of the paving on the pile. On that of the best possible grade for the street the walks will be three feet sidewalks along this section of the from the property line, or just to the pile. Mr. Colburn wants a uniform way a number of the property taken right away in order that help owners have them laid. The clerk was ordered to purchase building blocks. Ernest Colburn, police officer badges and keys for the "rascals" who will wear the new special police. Mayor Davis was building spoke a few words in discomposure to have the electric base of a new grade for the sidewalk lights in the town hall connected up and the lights fixed so that they
